

Trans free Hard Structural fat for
Margarine blend and Spreads

ABSTRACT

- 5 A Trans free hard structural fat suitable for the manufacture of low SAFA
(Saturated Fatty Acid) poly/mono unsaturated margarine and spreads and
fat blends for margarine/spreads. The structural fat is made from
selectively fractionated non-hydrogenated high melting palm oil fraction
10 which is interesterified with dry fractionated non hydrogenated palm
kernel fraction with high yield ratios that can be economically and
commercially used as structural fat for the aforesaid manufacture.
